

Discover the complete Duofuse® wood composite garden products

TONGUE AND GROOVE BOARDS SYSTEM

The durable and modular alternative to hardwood garden fences.

RANCH FENCING

The modular and durable alternative to hardwood or concrete ranch fencing.

DECKING

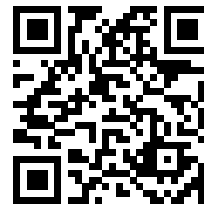

Enjoy a timeless and maintenance friendly decking.

ECOLOGICAL PRODUCT

Wood composite is a durable and ecological alternative to hardwood.

It is made of a mix of wood flour and PVC. Therefore it contributes to the protection and conservation of the tropical rain forests.

It does not require treatment with oil, solvents or cleaning products. The estimated life span exceeds that of conventional wood and afterwards is fully recyclable.

WOOD COMPOSITE SLAT WALL SYSTEM

DUOFUSE® WOOD COMPOSITE SLAT WALL SYSTEM

**A unique fencing system
that combines
design with durability.**

ADVANTAGES WOOD COMPOSITE

- Ecological and recyclable.
- Easy to clean and to install.
- Slip resistant, brushed surface.
- Will not rot, swell, splinter or split.
- Minimal discolouration, maintains original look.

ADVANTAGES SLAT WALL SYSTEM

Stronger and more durable than wooden fences.

Versatile and modular:

- Heights between 20cm and 200cm are possible.
- By using the corresponding U-profiles the boards can be attached to the post in 4 directions.
- Standard width of the boards is 200cm but boards can be cut to length.

Can be used for garden fences, raised beds,
building material for sheds, carports, cabins,
storeroom, gates,...

**The warmth and look
of solid wood combined with
the unique properties of plastic.**

ASSORTMENT AND DIMENSIONS

- Tropical Brown - Stone Grey - Graphite Black.
- Total fence thickness: 4cm.
- Steel reinforced boards: 20 x 4.0 x 200cm.
- U-profile (for the boards system): 4.0 x 5.5 x 202cm.
- Large U-profile (for gravel board): 4.2 x 3.5 x 182cm.
- Internal post holder: for invisible fixing on concrete, terrace,...
- Composite post reinforced with an aluminium core: 9 x 9 x 270 / 300cm.
- Cover cap to avoid water infiltration: 11 x 11 x 1.7cm.

- The profiles should be screwed to the post using stainless steel screws.
- The U-profile can also be used as a cover profile.
- Guaranteed 10 years for all mechanical properties and resistant to all ant and insect attacks.

MAINTENANCE

Special cleaning products are not necessary. When the fences have been exposed to some showers, water circles may occur. This is a temporary process. After some time this process stops it disappears completely. For normal maintenance a high pressure cleaner can be used (max. 80 bar) or just use normal domestic detergents. For persistent dirt, use a diluted bleach solution. Do not use solvents!
